15 June 1965

MEMORANDUM FOR: AD/OSA

SUBJECT: Revision of OPL-6

I have discussed this with Mr. Kirkpatrick and neither he nor Mr. Helms wish to face up to a major policy change of this type at this time. As you can well imagine, the Agency has many other transients to deal with which are externally generated, and I believe they are right in not settling internally generated ones. I doubt if we will have an American pilot lost in the next sixty days, which is the period of postponement they suggest. Will you please be sure that we address it again in two months' time.

/s/
